

Go global with Avalara Cross-Border

A one-stop shop for your end-to-end international compliance needs

International growth comes with its own set of complexities. Create a cross-border solution that's right for your business using our automated, modular solution that goes deep on content and accuracy.

Deliver real-time **calculation** of customs duty and import taxes at checkout, automate tariff code **classification**, and identify government **restrictions** on selling goods across borders.

AvaTax Cross-Border

Drive cross-border conversion and sales with a unified checkout solution that calculates or estimates customs duties and import taxes at the point of purchase to deliver a better customer experience.

Tariff Code Classification

Automate the assignment of Harmonized System (HS) codes with a solution that scales to meet global needs, including self-serve capabilities to managed classification services combining AI and human expertise.

Trade Restrictions Management

Learn about applicable government restrictions on selling goods across borders prior to shipment to alleviate products being denied at the border which can help reduce costs, focus your efforts on profitable transactions, and deliver a superior customer experience.

Simplify the complexity of cross-border sales.

Cut costs and increase accuracy with a flexible solution.

Maximize profits and improve customer experience.

Avalara's Cross-Border solutions can be implemented together or on their own, and with other Avalara compliance solutions for a unified platform.

Integrate seamlessly with many of the business applications you already use, or quickly and easily build one with our API.
