

Manage Documents

You've stored at least one compliance document in CertExpress. You want to review, download, or send an existing document. Here's how:

Click **START** in the Manage Documents box on the dashboard, or click the **DOCUMENTS** tab on the toolbar. You'll see all the forms you've created and stored on the next screen. Use the icons in the **ACTIONS** column to view, download, email, or delete your documents.
